Re: 3600 Civic Center Boulevard Building Identification Signs

To The Philadelphia Art Commission:

The 3600 Civic Center Boulevard site is currently under its second phase of construction under the current building zoning approval obtained on 6/02/22. The new addition will provide critical research and laboratory space for the University of Pennsylvania and Penn Medicine. The purpose of this proposed work is to provide (2) new Building Identification Signs, on the South and North elevations respectively, at the penthouse level. These signs will be similar to the other identification signs placed on Penn Medicine and University of Pennsylvania buildings.

Eric Helmig, Project Manager at Penn Medicine, in the office of Real Estate, Design and Construction, should receive the Commission's decision. His email address is **eric.helmig@penntest.com** and his mailing address is 3930 Chestnut Street, 1st Floor, Philadelphia, PA 19104. **Phone:** 215 605 4158.

Paul Gabriel, Director of Project Controls, Analytics & Regulatory at LF Driscoll, is your primary contact and Applicant. His email address is **paul.gabriel@lfdiscoll.com** and his mailing address is 401 East City Avenue, Suite 500, Bala Kenwood, PA 19004. **Phone:** 215 435 1239.

Paul can answer any questions about the application.

Sincerely,

Allan Horton
