Y (Yes) = Hospital accepts patients in listed specialty

BLANK = Hospital requesting to NOT receive patients in listed specialty

TC = Trauma Center
BC = Burn Center
CSC = Comprehensive Stroke Center
PSC = Primary Stroke Center
TCC = Thrombectomy Capable Center
CPSS = Cincinnati Prehospital Stroke Scale

EMTs and AEMTs:

Stroke patients with a CPSS score of 1 will be transported to the closest PSC or CSC.
 Stroke patients with a CPSS score of 2 or 3 will be transported to a CSC.

PRISON SYSTEM DESTINATION:

Stable pregnancy Thomas Jefferson - Main
 STEMI Jefferson - Torresdale
 Stroke Closest Appropriate Stroke Center
 Trauma Closest Trauma Center

PARAMEDICS:

Suspected stroke patients with a CPSS of 1 will be transported to the closest PSC or CSC.
 First calculate a CPSS on stroke patients. If CPSS is 2 or higher, then calculate an mRACE score.
 Patients with an mRACE score of 5 or greater and a last known well time of 3-24 hours will go to a CSC.
 Patients with an mRACE score of 4 or less will go to closest stroke center regardless of last know well.

*** Patients with ROSC after Cardiac Arrest should be taken to the nearest STEMI center.**
